What are You Making Today?

MAINE CHARITABLE
EST. 1815

A Legacy of Livelihood

Maine Charitable Mechanic Association has supported Portland's mechanics and makers and their families for over 200 years.

Maine Charitable Mechanic Association has stepped up to a new level. As our local and state economies grow in new and transformative ways, the small, independent “mechanics and makers” are filling that innovative space. They rely on the community of support and interaction that MCMA provides. We bring together the people, knowledge and resources to serve this increasingly vibrant network of entrepreneurs across Maine. Your gift will support our operations as we reach out, draw you into the conversation and strengthen future programming in our landmark building in the heart of downtown Portland.

WHAT'S NEXT? THAT DEPENDS ON YOU!

PROGRAM

MAINE KIDS CODE Makers of the 21st century will work with head and hand. Our computer coding class has been a smash hit, with both our young information makers and their parents.

PROGRAM

MAKERS AT THE HALL Gathering together to learn together has always been our mission. Makers at the Hall brings Maine's most vibrant, creative people together to share why they make, what they make.

TESTIMONIAL

“MCMA is an invaluable asset for us at Brant & Cochran. It creates a Maine maker community from which our axe business benefits through advice and support and (maybe more importantly) proselytizes for the important role of makers in the Maine economy.”
– **Mark Ferguson, Brant & Cochran, LLC**

TESTIMONIAL

“MCMA's Kids Code class gives kids the resources and freedom to grow a vital skill in a way that schools cannot. They get to sit side by side with technology professionals every week as they work on digital creations. The commitment of time and energy by Portland Area professionals is inspiring. It is the ideal setting for developing the next generation of thinkers, and problems solvers.”
– **Dwight Thorne, Kids Code instructor**

Please give generously!

Donations to the Mechanics are fully tax deductible. To donate, please mail a check to 519 Congress Street, Portland Maine 04101, or visit us online and make a contribution at **www.mainemechanics.org/support**. Every gift of any amount will help the organization support modern mechanics. **Thank you for your support!**
